TERMS AND CONDITIONS

Pulp product before loading and note temperatures on the bill of lading.

Driver must not break the seal; the receiver will remove it.

This is a produce load with a firm delivery appointment. If the appointment is missed for any reason within the Carrier's control, the rate will be reduced by $500 and Carrier is responsible for any price adjustment the receiver takes on the product.

Carrier agrees to provide check calls by 09:00 local time each day in transit.

A missed check call results in a $75 deduction per occurrence.

Cedar Gap pays for excessive loading or unloading delay at $45 per hour once three hours have passed from the appointment time, provided the truck was on time.

Delay pay is not available on first come, first served stops.

If the truck is held overnight by the receiver through no fault of the Carrier, $250 will be paid per 24 hour period with written authorization.

Our produce desk is staffed 24 hours a day at 559-555-0164.

Unloading fees at the receiver are the responsibility of the Carrier and are not reimbursed.

Remittance is made within 35 days of receiving a legible proof of delivery, the temperature download and the Carrier's invoice.

Cedar Gap offers same day pay through its payment partner for 5% of the invoice.

Carrier must upload the signed receipt in the Cedar Gap portal within 48 hours of delivery. After 48 hours the standard payment period restarts from the upload date and a $50 processing fee applies.

Carrier accepts responsibility for any loss resulting from the reefer unit running at a temperature other than the one shown on this confirmation.

Carrier must maintain reefer breakdown coverage as part of its cargo policy.

Pallets are not exchanged on this load.

Any charge, fine or claim related to this or any prior load may be set off against payments due to the Carrier.

Carrier signature: _____ Date: _____
